The Certified Safe Patient Handling Professionals™ has established nine core competencies, identified as skill sets beneficial for those leading and supporting SPHM programs. While an Associate applicant is not expected to be proficient in all areas, the Certification and Renewal Committee will examine an applicant's portfolio for these skill sets upon review.

Applicants should ensure that their professional experience, letter of recommendation, and professional development reflect their expertise and strengths in these areas. Additionally, once certified, certificants are encouraged to continue to build the nine core competencies through future professional development/continuing education.

NINE CORE COMPETENCIES: SKILL SETS

- **Financial Acumen** – Demonstrated through budgeting, cost justification, and/or vendor negotiation.
- **Team Leadership** – Demonstrated multidisciplinary collaboration and leading a cross-functional team.
- **Policy and Procedure Deployment** – Demonstrated through development, modification, and implementation of SPHM policy and procedure.
- **Training Deployment** – Demonstrated by development and delivery of training programs.
- **Clinical Knowledge and Experience** – Demonstrated through clinical job duties.
- **Risk Analysis and Control** – Demonstrated through analyses and linking control measures to risk results.
- **Program Promotion** – Demonstrated by internally/externally promoting the benefits and/or results of the SPHM program.
- **Program Audit** – Demonstrated by a formal review and reporting of program performance.
- **Unit-Specific Customization** – Demonstrated by adapting procedures to unit and patient-specific needs.
